

All UA Certified Signal Persons are fully qualified in accordance with strict NCCCO/EPRI standards

Will having a certified signal person make your job site any safer?

A signal person is the operator's eyes on the ground. A wrong signal could cause a serious injury or possible death. When it counts an experienced and certified UA Signal Person is the person for the job!

UA Signal Person Certification sets the Standard for Safety in Industry:

- ✓ All UA Signal Persons are third party certified by the National Commission for the Certification of Crane Operators (NCCCO).
- ✓ The UA Signal Person Training & Qualification Program is in full compliance with the latest OSHA Federal Regulation 29 CFR Part 1926
- ✓ The only organization recognized by the Electric Power Research Institute (EPRI) as compliant to their administrative protocol for portable practical examinations for industrial rigging.
- ✓ UA Signal Person Training and Qualification program complies with the ASME B30 and ANSI A10.42 Standards.
- ✓ Over 300 local union training centers, using state-of-the-art equipment, are located throughout the United States and Canada.
- ✓ In access of 3600 certified NCCCO signal persons and 320 certified NCCCO practical examiners.
- ✓ Standardized signal person training governed by an audited and approved quality assurance program.
- ✓ UA training programs are approved and certified by the U.S. Department of Labor.

Over 340,000 members strong, the UA has consistently strived to develop training and certification programs that improve members' skills with the aim of increasing job productivity and safety.
